

1925

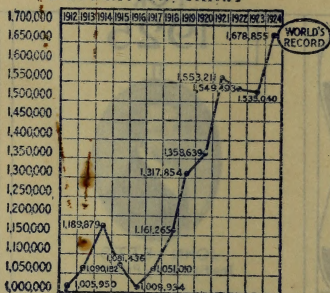

of Charles Letts's Diaries

The Times says "Their place at the top is not likely to be seriously challenged."

CIRCULATION CHART

The EFFICIENCY MAGAZINE says

"There are about 30,000,000 grown-up people in Great Britain, and only 3,000,000 of them buy diaries. This means that only one person out of ten has business habits. Charles Letts supplies more than half of these."

There's a reason

NOTE.—To find time of High Water at any of above places, add or subtract the time in above Table to or from that of High Water at London for the day required, as given in the Calendar; the result is approximately the time at the place itself. In cases where the interval to be subtracted is greater than the London Bridge time, 12 hours must be added to the latter.

Example.—On Jan. 17, morning, High Water at London Bridge is 6h. 8m.; High Water at Dover is 2h. 46m. earlier; subtract 2h. 46m. from 6h. 8m., and time at Dover on that day is shown to be 3h. 22m. a.m.

SUN, 1925.

Risings and Settings at
Greenwich.

LAMP-LIGHTING TABLE.

Showing variation in time of Sunrise and Sunset for principal places in Great Britain, on 1st of each month.
 EXAMPLE E.—Required time of Sunset at Perth, on June 6th, and of Sunrise at Falmouth, on September 26th.
 The times given in the preceding pages are 8.12 and 5.51. Table shows that 43 m. has to be added to 8.12=8.55 p.m., and 22 minutes added to 5.51=6.13 a.m.

Lamps must be lit between half-an-hour after Sunset and half-an-hour before Sunrise.

MEMORANDA

MEMORANDA

The Astronomical and other Notes throughout the Diary refer to GREAT BRITAIN. The times of the Moon's Phases and other Astronomical data are given in Greenwich mean time and for the meridian at Greenwich. During the operation of the Daylight Saving Bill times must be altered accordingly.
